Play Values

This product supports the following areas of child development.

Visual Stimulation

Inclusive Play

Role Play

Description

The Showtime Mirror Play Panel allows children to see their reflections and have fun making different poses while imagining they are about to perform. The mirrors are made from the best quality mirrored polycarbonate sheet making them virtually unbreakable, and will not shatter and become unsafe in the playground environment. Secured to the main panel using an HDPE frame, which allows for different expansion rates and makes sure that the mirror stays securely attached to the panel. Bespoke design options are also available. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
