This product supports the following areas of child development.

Inclusive Play

Phonics & Spelling

Description

The Last Letter Sounds panel has been designed by talking to what teachers and what they want from a phonics type panel. The panel has been designed to incorporate easy-sliding letter discs, so there are no loose parts to go missing or to fly around the playground, which also means that there are no loose parts to worry about losing or have to put away each night. Please note: This panel can be specified with your own set of phonics letters, words to complete and the graphics hints to go along with them. Bespoke design options are also available. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
