Play Values

This product supports the following areas of child development.

Description

The Backstop (7.5x3 m) is a robust barrier designed to catch balls and prevent them from leaving the play area, making it ideal for sports fields, parks, and schoolyards. Constructed from high-quality stainless steel, this backstop is durable, weather-resistant, and suitable for long-term outdoor use. Its large size ensures maximum coverage, keeping the play area safe and organized.

- Fully customizable.
- Low-noise thanks to sound-absorbing cables.
- Creates a meeting spot in the neighbourhood.
- Transparent structure, keeping sight lines open.
- Available in any standard RAL colour.
- TÜV certified.
