

3 Way Hopscotch (using 300mm squares)

Product Code AMVF4-PM-006

£408

Price includes installation (Min. order value £1,000 plus VAT applies)

Dimensions:

Length 4800 mm
Width 4800 mm

Key Stage:

Play Values

This product supports the following areas of child development.

Jumping

Gross Motor Skills

Description

Hopscotch is a traditional game, dating back to 1677 and thought to be used by the Romans to train their army with fitness and endurance. It has been known as Scotch Hobby, Hop Score and Peevers and pabats in Surrey. Hopscotch is a fun way for children to develop numeracy and counting skills as well as developing positive social play. The hopping and jumping is a great way to encourage exercise at playtimes and helps to develop fine motor skills and fitness. Turn Hopscotches are a fantastic adaption to the traditional game. They allow more children to take part, develop their physical skills and use the game to evolve their social development.
