

Rocket Hopscotch 300 (using 300mm squares)

Product Code AMVF4-PM-007

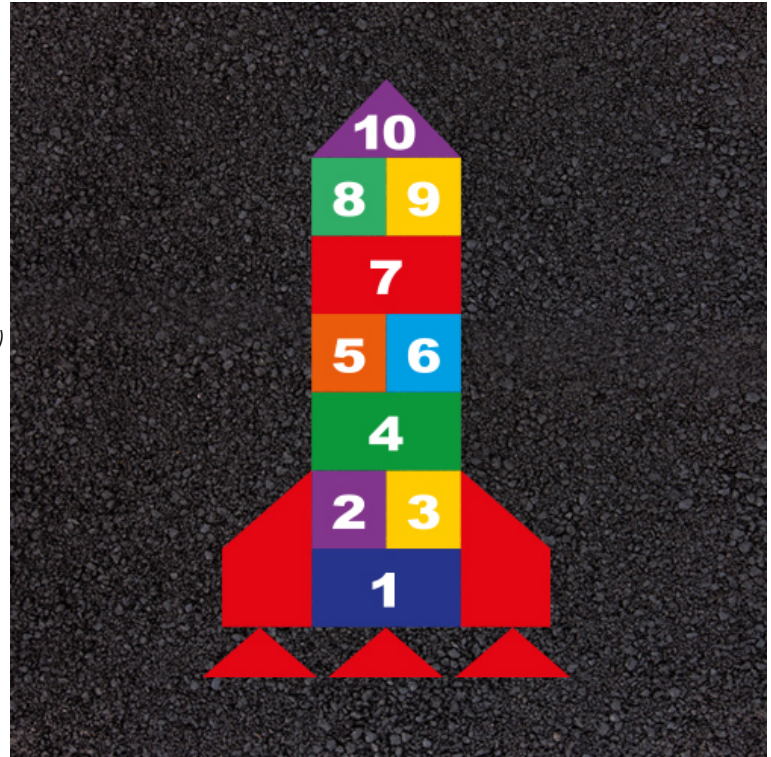

£204

Price includes installation (Min. order value £1,000 plus VAT applies)

Dimensions:

Length 2400 mm
Width 1200 mm

Key Stage:

Play Values

This product supports the following areas of child development.

Jumping

Gross Motor Skills

Description

Hopscotch is a traditional game, dating back to 1677 and thought to be used by the Romans to train their army with fitness and endurance. It has been known as Scotch Hobby, Hop Score and Peevers and pabats in Surrey. Hopscotch is a fun way for children to develop numeracy and counting skills as well as developing positive social play. The hopping and jumping is a great way to encourage exercise at playtimes and helps to develop fine motor skills and fitness. A cool variation of the traditional game of hopscotch with the game in the shape of a rocket. A fun and exciting alternative to the plain squares.
