This product supports the following areas of child development.

Communication Skills

Description

The Modular Seating system is an extremely versatile product which can be purchased in any quantities or colours. It provides a limitless combination of seating arrangements; around corners, around trees or posts, along walls or in fixed geometric patterns.

Use the seating to divide areas, create areas for small groups or as an interesting feature, snaking around your site.

The end "boxes" can be supplied with solid flat tops or open to act as planters. Once installed (simple self-assembly required) the products are totally maintenance free and can be added to in future years.

FEATURES

- Typical lifespan 10+ years
- Vandal-resistant and easy-to-clean
- 100% weatherproof (unaffected by cold, heat or moisture)
- Hassle free (delivered ready assembled)
- Maintenance free (no repainting or surface treatment)
- Hygienic (will not rot or develop mould over time)
- UV stable (colour protected against fading in sunlight)
- Environmentally friendly (recycled and recyclable plastic)

COLOURS

- Seating supports available in a wide range of colours.
- Seat struts made from 100% recycled material and only available in black.
