Play Values

This product supports the following areas of child development.

Visual Stimulation

Inclusive Play

Description

The Concaved Mirror Play Panel is a simple design that creates hours of fun. Because safety is the number one priority at AMV this panel is manufactured using polished and then rolled stainless steel mirror panel inserts. Most of the larger mirrors are secured to the main panel using an HDPE frame, which allows for different expansion rates and makes sure that the mirror panel stays securely attached to the panel. Bespoke design options are also available. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
