Imaginative Play

Co-Operative Play

Communication Skills

Description

The Pirate Ship is constructed using pre-assembled modular sections that bolt together on site. These modules are fully customisable in the colours, graphics and style that you want for your project and they can be made longer or shorter simply by adding or removing modules to suit your budget or to fit your site. The modules are easy to install and can be freestanding or anchored down with "L" brackets (supplied separately).
