Communication Skills

Description

The Steam Express Train Set products are larger than the Early Years Train Set, making them more suited to an older age range. Featuring a crawl-through tunnel at the front of the Express Train, seating throughout the train and carriages and fun graphics to boost the imaginative play experience. Each unit is durably built using high quality materials and do not feature any timber, so they will not rot, crack, split or develop splinters, which is very important when children are playing on them.
